

PROCUREMENT CONTRACT SERVICES

Flowtech is pleased to announce the introduction of a new 'Procurement Contract Services' Project Team – with the objective of adding-value to our Customers' Businesses.

The team has a wealth of product sourcing experience and depth of knowledge – having direct access to over one million branded products, along with the support and expertise of our extensive manufacturing facilities around the world.

Receiving large or unusual contract / project-based customer enquiries can sometimes be quite daunting in the size and variation of products required.

HELP IS ON HAND...

No matter how large or small the project, we will support you in finding a solution to your Customers' Contract/Project requirements.

Never walk away from that one assignment that demands too much of your valuable time; challenge Flowtech to come up with the best resolution within your customer's given time scale to win that all important order.

We always employ the same approach in supporting you and your customers' businesses become more effective, profitable and successful – by applying Best Practice Procedures to all our Procurement and Sourcing operations.

If you require further information on how our Procurement Contract Services can support your business to become more profitable, please contact your Flowtech Business Development Manager who will take the initial enquiry and ensure the Procurement Contract Service Team has a full understanding of all your needs.
